

Pylint Code Quality Report

Target: backend/src/app

Category	Code	Location	Message
Style (PEP8 / Convention)	C0116	main.py:53	Missing function or method docstring
Design (Refactor)	R0913	db/pagination.py:9	Too many arguments (6/5)
Exceptions (Warning)	W0718	modules/chat/orchestrator.py:197	Catching too general exception 'Exception'
Other (Error)	E1101	modules/payments/service.py:37	Instance of 'Client' has no 'order' member

Overall Code Score: 7.92/10

Command Used:

uv run --with pylint pylint src/app --output-format=text

Pylint Features Used:

- missing-function-docstring (C0116) — PEP8 / convention checker
- too-many-arguments (R0913) — design checker
- broad-exception-caught (W0718) — exception checker
- no-member (E1101) — error checker

Code & Output Detail

Style (PEP8 / Convention) — C0116 (main.py:53)

```
Code:
@asynccontextmanager
async def lifespan(app: FastAPI) -> AsyncIterator[None]:
    settings = get_settings()
    reminder_task: asyncio.Task | None = None
```

Pylint Output:
src\app\main.py:53:0: C0116: Missing function or method docstring (missing-function-docstring)

Design (Refactor) — R0913 (db/pagination.py:9)

```
Code:
async def paginate[T](
    model: _PaginatableModel[T],
    *,
    where: dict,
    order: dict,
    skip: int,
    take: int,
    ...
```

Pylint Output:
src\app\db\pagination.py:9:0: R0913: Too many arguments (6/5) (too-many-arguments)

Exceptions (Warning) — W0718 (modules/chat/orchestrator.py:197)

Code:

```
except Exception as exc: # noqa: BLE001
    return ChatResponse(reply=f"Something went wrong: {exc}", source="error")
```

Pylint Output:

src\app\modules\chat\orchestrator.py:197:11: W0718: Catching too general exception Exception (broad-exception-caug

Other (Error) — E1101 (modules/payments/service.py:37)

Code:

```
order = client.order.create(
    {
        "amount": amount * 100,
        "currency": "INR",
        ...
    }
)
```

Pylint Output:

src\app\modules\payments\service.py:37:12: E1101: Instance of 'Client' has no 'order' member (no-member)
